2015 MINNESOTA ENERGY CODE

- Provides energy-conserving standards for the design, construction, alteration, renovation and repair of residential and commercial buildings.
- Contains design and construction standards regarding heat loss control, illumination and climate control.
- Is in Minnesota Rules Chapters 1322 and 1323. The rule adopts by reference Chapters 2(RE) through 5(RE) for residential, 2(CE) through 5(CE) for commercial, and optional ASHRAE Standard 90.1-2010, the 2012 International Energy Conservation Code (IECC), and Minnesota amendments to the 2012 IECC. The IECC includes requirements for both residential and commercial buildings.

EFFECTIVE DATE

- Commercial Energy Code with ANSI/ASHRAE/IES Standard 90.1-2010 is effective **June 2, 2015**.
- Residential Energy Code is effective **Feb. 14, 2015.**

CODE BOOK

The 2015 Minnesota Energy Code is a custom code published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes a Minnesota chapter on Administration. There is no longer a need to separately purchase the ICC model code and Minnesota amendments and refer to them both. Now they are contained a single reformatted Minnesota-specific code book.
Code books are available for purchase and free, online viewing will be available in June 2015.
